

Environmental Policy

Our policy towards the environment

ADT Systems Ltd provide IT and telephony solutions to companies throughout the UK. As a company we aim to protect the environment with a sensitive and responsible attitude. We are aware of the effects that all aspects of our business operations may have on the environment and are committed to:

- Reducing the company's energy usage and other resources by increasing efficiency. Re-using materials where practicable and reducing all forms of waste from our operations.
- Recycling materials as far as local facilities will allow.
- Ensuring that we are compliant with all relevant environmental legislation and other requirements and remain committed to pollution prevention.
- Maintaining commitment to ethical and environmental purchasing.
- Providing training and information for all employees and contractors to ensure they integrate the aims of this policy into their responsibilities at work.
- Taking on-going responsibility for ensuring that this policy is implemented and regularly reviewed.
